

Project Title: AI in the Humanities

Driving Question: How do we use AI ethically and what should be its limits?

Project Description & Purpose:

- Explore the extent to which AI should be involved in the creation of art and human society in general
 - Spanish - how is language connected with AI through translation?
 - English - Argumentative Essay to what extent can AI help or harm?
 - Define Ethics - our societal understanding of right vs. wrong
 - Ethnic Studies - Role of implicit bias in AI algorithms
 - Define Ethics - our societal understanding of right vs. wrong
 - Acting - Using AI for script analysis
 - Students generate an AI script and edit it
 - What are the limitations of AI generated scripts?
 - Design - AI generated advertisements / designs
- Create a visual representation that demonstrates your understanding of how we can use AI ethically and what should be its limitations
 - Jobs using just AI
 - Jobs for humans working with AI
 - AI use in the Arts
 - Safeguards / Ethical limitations for AI use
-

Project Launch:

Who:	Adams
When:	3/4/24
Where:	English
Launch Event Outcomes:	Students understand the purpose and scope of the project, discuss the key concepts of AI as well as pros and cons; discuss performance assessment.

Performance Assessments- Major Products & Timeline

Class(es)	Performance Assessment	LAHSA Outcomes	Benchmark Assignments & Due Dates
English 9B	Argumentative essay Visual Poster / Slide Design	Critical thinking Communication	Annotate multimedia sources, Mar.4-22nd Posters to share perspectives, Apr. 2-3rd - Resource Gallery Socratic seminar, Apr. 4-5th Argumentative essay, 8th - 19th
Ethnic Studies	Documentary Analysis	Critical Thinking Citizenship	Coded Bias Viewing Guide Coded Bias Response & Reflection
Spanish	Socratic Seminar	Communication Critical Thinking Collaboration Professionalism Citizenship	<input type="checkbox"/> Annotate multiple articles about AI <input type="checkbox"/> Debate & refute: classmates' positions/points of view. <input type="checkbox"/> Socratic seminar <input type="checkbox"/> Reflection paper
Design	Visual Poster Design Elements	Innovation	
Acting	Script Analysis - how can AI help actors in script analysis?		

Rubric for Performance Assessments

	ADVANCED (4)	PROFICIENT (3)	APPROACHING (2)	DEVELOPING (1)
Content - Slides	4 slides	3 slides	2 slides	1 slide
INFORMATION Requirements	All requirements met High level of detail High quality	Missing 2-3 requirements Good level of detail		
Visuals / Design				
Speaking	Eye contact Gestures Projecting Posture
